ABOUT KOZZA

Kozza Smith was born on 20 March 1988 in Cessnock, New South Wales, Australia and the now 22 year old is an international motorcycle speedway rider who is about to embark on his fourth European speedway season in Europe predominantly based in the UK at his adopted home near King's Lynn in Norfolk.

Kozza is all set this year to race for the Berwick Bandits in the British Premier League and will also line up as a squad rider for the famous Belle Vue Aces based in Manchester who ride in the sports top tier in the UK the Sky Sports Elite League. Smith began racing at the age of 14 in Australian junior speedway and in 2006 he won the Queensland under-21 state championship. He moved to the United Kingdom and joined his first senior club, King's Lynn for the 2008 British Premier League season. The following year after a very successful season back home in Australia where he finished as runner-up in the Australian Under-21 final he returned to the King's Lynn line up and also joined up with Ipswich in the Sky Sports Elite League. Kozza played his part for the Stars that year as they went on to win three major trophies but serious injury curtailed his season.

He was back again last year where he developed into a consistent performer for King's Lynn in the British Premier League and once again turned out for Ipswich in the top tier Sky Sports Elite League.

Kozza will be a key player in Berwick Bandits Premier League season in 2011 and he will be pushing for the number one spot in the team as the season develops. A very professional and likeable Aussie who always has time for the paying public and one who would give positive commercial exposure to any business or person(s) interested in supporting him this year.

Speedway racing is like most motor sports very expensive when you are attempting to reach the very top in your sport and to continue his progress and realise his undoubted talent Kozza Smith Racing would be delighted to welcome on board any business or company wishing to widen their commercial marketing portfolio. The following pages detail what packages are available to you and we would be happy to discuss individual sponsorship packages tailored to suit your needs and requirements.
